MEMORANDUM FOR: Chief, Technical Services & Support Group

SUBJECT : Updating of Contract Information System  
Sheets

1. The Contract Information System sheets have now been reviewed and updated. These are corrections to all of those items which were already in the system. In addition, we have inputted the data for all of those projects forwarded for approval in FY-70. This information has all been packaged and forwarded to DD/S&T/MIO.

2. There is one area of information not yet forwarded. We still need to input those items for FY-70 which are contemplated but have not yet been forwarded for approval. We are currently in the process of reviewing and revising our FY-70 budget, eliminating projects which detailed study indicated would not be productive and including projects which have resulted from studies such as our efforts in the area of color and computerized editing. As soon as our budget has been revised, this final updating will take place.

  
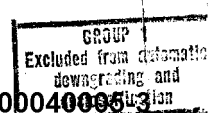

Chief,  
Research & Engineering Division
